

White Label Agreement (Sample)

CIVITAS LLC · Sample WLA · Illustrative excerpt

SAMPLE DOCUMENT — for illustration only. Not a binding agreement. Refer to the current published version for contractual terms.

1. Appointment

CIVITAS LLC (doing business as RTFCT) appoints Partner as a non-exclusive distributor of the RTFCT substrate under Partner's own brand, on the terms of an applicable Order.

2. Brand & Co-Brand Lock

Partner applies its logo, domain, and palette to all client-facing surfaces. The "Powered by RTFCT" verification mark is rendered on all exports and interfaces and may not be removed or obscured.

3. Custody of the Artifact

The rtct (Machine-Readable Artifact) never leaves the CIVITAS vault perimeter. CIVITAS retains exclusive custody of the interception engine, rtct generation, and VLT filing layer; Partner retains the client relationship, retail pricing, and front-end experience.

4. Wholesale Economics

Partner is invoiced at wholesale interaction rates and sets its own retail pricing. Sub-account provisioning, usage tracking, and billing oversight are performed through the partner administration tools.

5. Term & Termination

Term, renewal, and termination rights, together with the wind-down obligations governing client migration and continued evidentiary access, are defined in the executed agreement.

6. Notice

This is a sample for illustration and is not a binding agreement. Refer to the current White Label Agreement for contractual terms.
